Instruction

SUPPLEMENTARY INSTRUCTIONAL MATERIALS

Teachers may use supplementary materials which are relevant to curriculum standards and appropriate for students' ages and abilities. By using such materials, teachers can introduce content and instructional strategies that enrich the curriculum, enhance learning, help students make critical judgments, and stimulate their intellectual growth.

When selecting supplementary materials for classroom use, teachers should carefully review them and provide appropriate introductory and follow-up activities. Supplementary materials should not supplant the use of basic texts or teaching activities. Films must be used within legal copyright limits.
