DISCIPLINE

Note: 4 AAC 07.010 mandates districts to adopt policies regarding student rights and responsibilities including substantive and procedural matters related to student behavior, treatment, and discipline. 4 AAC 07.010 further mandates a uniform discipline policy throughout the district and prohibits the use of corporal punishment. 4 AAC 07.050 requires Board review of these policies every three years.

The School Board believes that one of the major functions of the public schools is the preparation of youth for responsible citizenship. The district shall foster a learning environment that reinforces the concepts of self-discipline and the acceptance of personal responsibility. Students are expected to progress from being adult-directed to self-directed with minimal application of disciplinary measures.

The Board recognizes that there must exist certain disciplinary policies and regulations relating to student conduct that delineate acceptable behavior and provides the basis for sound disciplinary practices within each school in the district in order to maintain an environment conducive to learning. These policies and regulations will be enforced fairly, uniformly, consistently and non-discriminatory.

(cf. 0410 - Nondiscrimination in District Programs and Activities) (cf. 5131 et seq. - Student Conduct)

The administration, teachers and classified staff share mutual responsibility for the enforcement of district policies and regulations pertaining to student conduct and safety. The Board shall give reasonable support and assistance to employees with respect to student discipline. The Board shall review its policies related to student rights and responsibility at least once every three years and shall modify its policies as needed in accordance with law.

The Board recognizes that not all students will adhere to district rules for appropriate behavior. Sufficient support services shall be provided so that continually disruptive students will not be returned to regular classes without some modification of behavior. Students may be assigned to other alternative programs or be subject to removal from school.

In-School Suspension

In an effort to establish disciplinary procedures that are effective in reducing student truancy and misbehavior and do not interrupt the educational process, the Superintendent or designee may authorize in-school suspension as an alternative to out-of-school suspension. In-school suspension removes the student from the school social scene while still requiring him/her to maintain the same basic school day schedule and to keep up with required academic assignments. Failure to serve in-school suspension or removal from the in-school suspension program for disciplinary reasons shall result in out-of-school suspension or additional time assigned.

(cf. 5144.1 - Suspension and Expulsion)
DISCIPLINE (continued)

Each principal shall publish school rules for student discipline that describe the school’s behavior management plan and the consequences for student misconduct. Special care shall be taken when developing school rules to solicit the views of the school community, including administrators, teachers, school security personnel, parents/guardians and students.

School site rules must be based strictly on district policy, regulations and state and federal laws, must be uniform by grade level across the district, and must be enforced fairly and uniformly. The Superintendent or designee shall establish procedures for the approval of such rules.

At the beginning of each school year, the Superintendent or designee shall ensure that every student and his/her parents/guardians are notified in writing of the availability of Board policies and administrative regulations related to student rights and responsibilities. Such policies shall be posted in accordance with law.

Corporal Punishment

Note: The use of corporal punishment is prohibited in Alaska’s schools. 4 AAC 07.010. Corporal punishment is defined as the application of physical force to the body of a student for disciplinary purposes. 4 AAC 07.900. AS 14.33.120 requires school districts to adopt standards regarding the use of restraint and seclusion to prevent imminent danger to a student or other person. The following standards are based upon guidelines found in AS 11.81.430 AS 14.33.125 and 4 AAC 07.900.

| (1) “Chemical Restraint” means a psychopharmacologic drug that is used on a student for discipline or convenience and that is not required to treat a medical symptom; (2) “Mechanical Restraint” means the use of a device that is not a medical device or protective equipment prescribed by a qualified health care professional to restrict a student’s freedom of movement; (3) “Physically Restrained” or “Physical Restraint” means a personal restriction that immobilizes or reduces the ability of a student to move the student’s arms, legs or head freely; (4) “Restraint” means physical restraint, chemical restraint, mechanical restraint, or other aversive behavioral interventions that compromise health and safety; (5) “Seclusion” means the involuntary confinement of a student alone in a room or area that the student is physically prevented from leaving; “seclusion” does not include a classroom time-out, supervised detention, or suspension from school under AS 14.30.045. |

Corporal punishment is prohibited by law as a disciplinary measure against any student. School administrators and teachers shall employ other means of disciplining students. Restraint and seclusion, if used in full compliance with applicable law, is not corporal punishment.

Reporting to Law Enforcement

Note: Effective January 1, 2001, a teacher, teacher’s assistant, administrator, or other employee responsible for students who, during the course of employment, observes a student committing a crime must report the crime to local law enforcement. AS 14.33.130. The obligation to report to law enforcement resides with the staff member observing the crime. "Crime" means an offense for which a sentence of imprisonment is authorized; a crime is either a felony or a misdemeanor. AS 11.81.900.

In addition to subjecting a student to discipline, any crime committed by a student while at school, on school grounds, or during any school sponsored activity on or off campus shall be reported to law enforcement. Criminal proceedings are independent of actions taken by the School District. The District may impose discipline for misconduct regardless of whether criminal charges are filed or a conviction is obtained. The Superintendent should ensure cooperation with law enforcement in the criminal investigation of students who commit crimes while under the jurisdiction of the school.
