Students

HEALTH EXAMINATIONS

The School Board recognizes the importance of periodic health examinations conducted according to state health regulations. To determine the health status of students, facilitate the removal of handicaps to learning, and determine whether special adaptations of the school program may be necessary, the Board shall require that physical examinations to students be conducted, including tests for vision and hearing, upon entry into school or as soon as practical.

All personnel employed to examine students shall exercise proper care of each student being examined and shall ensure that the examination results are kept confidential.

(cf. 5112.2 - Exclusions from Attendance)
