Parent/Guardian Rights and Responsibilities

To participate in the education of their children, parents/guardians should become and remain aware of what the school expects from the child. Teachers and/or other school representatives will attempt to contact parents/guardians as soon as possible whenever there is a reasonable belief that the student's discipline and/or attendance is seriously in need of improvement, and will seek the cooperation and suggestions of the parents/guardians in improving the child's compliance with rules regarding achievement, behavior and/or attendance.

Parents/Guardians should take an active role in seeing that students complete and turn in homework assignments on time. Parents/Guardians should contact the child's teacher directly whenever the parent/guardian has a question or desires further information concerning the progress or education of their students, including homework assistance.

Parents/Guardians are expected to instill in their students the value of a good education and respect for teachers and other school officials.
