

How to Enable Voice Calling via Remind- from the phone app

Many teachers and staff working from home would still like to be able to call families to stay connected and provide support. In order to keep staff members' personal phone numbers private, we are asking families to enable voice calling via Remind.

1. Follow the link in the welcome text message to download the app and create a Remind account, or merge with an existing account.
2. When you log in, you will see your dashboard showing your children's classes.
3. Click on the three lines in the upper left to get your account details
4. Click on the gear icon in the upper left to open your Account Settings and make sure your cell phone number is added and you have enabled voice calling, as shown.
