How to Enable Voice Calling via Remind- in a web browser

Many teachers and staff working from home would still like to be able to call families to stay connected and provide support. In order to keep staff members’ personal phone numbers private, we are asking families to enable voice calling via Remind.

1. In your parent welcome e-mail, click “Join your new classes”

2. Click whichever button applies, to either log into your existing account or create a new one. If it asks you to merge accounts, say yes. This will merge your previous account and this one and will ensure you are connected to your children.
3. Click on your name, then on Account Settings

4. Under Call Preferences, check the “Receive Calls through Remind” box and choose your cell phone number if you have more than one number listed.
