Using the values above, create a word with $1.00 in value.
What is the most expensive word you can create?
What is the least value 5 lettered word you can create.

4 letter change game
- Write a four-letter word on the board. Students are to create new words by changing a single letter of the word. How long of a word chain can you make? (Ex: word-worm-warm-warp,... etc.)

Kodiak streets
- How many Sitka Streets can you write down?

Teacher names at school
- How many school employees can you name?

Scramble 5 vocabulary words, then exchange with a student.

Name as many states as you can that end with an “e”.

Name as many presidents as you can in a given amount of time.

Name the sections of the newspaper.

Write about If I was a “______”
- Students can select the blank or teacher can.

Write the multiples of 3 or some other number up to 100, 150, etc.
Define a prime number: A number with exactly 2 factors... 1 and itself. For example, 3 is a prime number because the only numbers you can multiply to get 3 are 3 and 1. The number 4 is not prime because 2 X 2 = 4.)

Have the students write the prime numbers:

- Less than 25 (9)
- Less than 50 (15)
- Less than 100 (24)
  
  (2, 3, 5, 7, 11, 13, 17, 19, 23, 29, 31, 37, 41, 43, 47, 53, 59, 61, 67, 71, 73, 79, 83, 89, 97)

Alphabetize Word List

- Pick a topic (for example animals)
- Name an A animal, then a B, then a C, etc.

Name as many states with capitals as you can.

Name as many musical instruments as you can.

Write a word on the board; how many words can you come up with that rhyme with that word.

Write 5 objects on the board. Have students write them in order of year invented from oldest to youngest. Justify your answer.

- Airplane, car, cell phone, personal computer, microwave oven
- Have students create their own lists
